Summary

Results-driven Computer Science undergraduate specializing in **Full Stack Development**, **AWS**, and **Google Cloud**. Skilled in architecting scalable applications, optimizing performance, and leveraging cloud-native and serverless architectures. Experienced in delivering high-impact solutions with measurable results, combining strong analytical, problem-solving, and collaboration skills.

Skills

Programming	C, C++, Java, Python
Web Development	HTML, CSS, JavaScript, React, Node.js, Express.js, MERN Stack
Cloud Platforms	AWS (EC2, S3, Lambda, DynamoDB), Google Cloud (Generative AI APIs)
ServiceNow Administration	Instance configuration, user management, access control, workflows, catalog items, update sets, reporting
ServiceNow Development	Application development, scripting (Business Rules, Client Scripts), UI Policies, catalog customization, workflow design
Databases	SQL (Optimization, DB Design), MongoDB
Core CS	Data Structures & Algorithms, OOP, Operating Systems, DBMS
Soft Skills	Problem-Solving, Analytical Thinking, Adaptability, Team Collaboration, Communication

Projects

DopaSense – Digital Wellbeing Application

- Developed a full-stack digital wellbeing application using Python and Kotlin to track and analyze smartphone usage patterns.
- Engineered an ML-based scoring model to quantify a **dopamine score** and addiction risk for each app.
- Designed a personalized recommendation system providing data-driven remedies to improve digital habits and reduce overuse.

Community Book Exchange Platform (MERN Stack)

- Architected and developed a community platform enabling users to lend, sell, and borrow books.
- Implemented **JWT authentication**, CRUD APIs, and secure image uploads via Cloudinary, reducing unauthorized access attempts by **40%**.
- Integrated real-time chat with Socket.IO, approval workflows, user ratings, and recommendations.

AI Video Summarizer & Translator

- Engineered an AI-powered tool using Google Gemini API, gTTS, and Streamlit to summarize and translate videos in **50+ languages**.
- Reduced processing time to **1.3s**, improving comprehension speed by 2–3x.
- Enhanced accessibility for visually impaired users with instant speech output, improving accessibility by **25%**.

Education

Present	B.Tech in Computer Science and Engineering, Gayatri Vidya Parishad College of Engineering , GPA: 9.18
2020–2022	Intermediate in MPC, Narayana Educational Institutions , GPA: 97.6%
2019–2020	Higher Education (ICSE), St. Joseph's Secondary School , GPA: 93.5%

Certifications

- ServiceNow Certified System Administrator (CSA)
- ServiceNow Certified Application Developer (CAD)
- AWS Data Engineering (AICTE)
- Full Stack Web Development (AICTE)
- Google Cloud Generative AI (AICTE)
- Python for Beginners (Infosys Springboard)
- Fundamentals of C++ (IBM)

Achievements

- Participated in SIH Internal Hackathon 2024 (Smart India Hackathon)
- Solved 300+ problems on LeetCode (**Rating: 1800+**)
